Prevent Falls & Wandering

Smart Caregiver Corporation Value Statement

Founded in 1994, Smart Caregiver Corporation has been providing Fall Prevention and Anti-Wandering devices for distributors and their customers worldwide. With over 25 years of experience, we are experts in Fall Prevention and Anti-Wandering products. It's all we do. It's all we produce.

Our world-class customer service representatives are trained to assist not only our distributors, but also their customers. Smart Authorized Distributors are experts in Durable Medical Equipment (DME) and Home Medical Equipment (HME). We rely on their experience to best serve caregivers and residents throughout the world.

Our products are simple, easy-to-use and do-it-yourself. We supply products that provide the level of prevention you and your customers need. We also provide sales and marketing material to help support our distributors to better educate caregivers on the benefits of using Smart Caregiver products.

In-service training is available to caregivers, Directors of Nursing, maintenance staff and distributors via conference calls or video conference. We offer an unmatched, no cost (including shipping both ways) demo program so caregivers, distributors and facility customers can try our products to make sure that they meet the needs of the caregiver. Call for details.

At the end of the day, 100% satisfaction is our goal.

We look forward to helping provide the solutions needed to keep your customers and ultimately, residents safe at the best price.

Sincerely,

A handwritten signature in black ink that reads "Tim Long". The signature is fluid and cursive, with the first and last names clearly distinguishable.

Prevent Falls & Wandering

Smart Outlet Systems

Reduce Falls at Night Outlet Turns on Light When They Get Up

Use With Smart CordLess Pads or Floor Mats

The Smart Outlet will turn on a light when weight is removed from a bed or chair sensor pad or when weight is placed on a floor mat or landing mat.

Lights Turn On To Reduce Tripping Hazards

The Smart Outlet will turn on a light when triggered by the Cordless Bed Sensor Pad / Floor Mat. The Smart Outlet allows you to plug in any standard lamp or light source to create a safer environment by providing light when someone gets out of bed.

Key Features:

- Immediately lights up room upon activation!
- Cord Free Operation
- Turns lights on when resident gets up
- Works with CordLess sensor pads and floor mats

For caregiver notification, can be used in conjunction with:

TL-2100B

Know When They Get Up! Low Cost Fall Prevention Monitor

Great Value!

The Bed & Chair Fall Prevention Alert is a Full-Function, Low Cost Monitor designed for use with all Smart Caregiver Corded Pads, Floor Mats and Seat Belts. This is a high quality product at a great, everyday value.

Auto-Reset Function

Alert can be placed at the bedside or wheelchair, connected to a corded sensor pad. The sensor pad is placed under the resident. When the resident gets up and weight is removed from the pad, the monitor will sound alerting the caregiver. When weight is re-applied to the pad, the monitor will silence and reset for use.

Key Features:

- Full-Range Volume Control
- Nurse Call Capability - enables use with existing hard-wired nurse call systems
- Low Battery & Status Indicator Lights
- Battery not included (1 x 9V)
- Optional AC adapter available (AC-02)

For use with one of the following Corded Sensors:

PPB-WI – Bed Sensor Pad 20" x 30"

PPB-RI – Bed Sensor Pad 10" x 30"

PPC-WI – Chair Sensor Pad 10" x 15"

TL-2109 – Easy Release Seat Belt 54"

TL-2109V – Quick Release Seat Belt w/hook & loop 44"

FM-05 – Floor Mat 24" x 36" (gray)

FM-06 – Floor Mat 20" x 30" (under rug) (gray)

FM-07 – Floor Mat 24" x 48" (gray)

TL-2100E

Easy-To-Use Chair & Floor Mat Fall Prevention Alert

Easy-To-Use Fall Prevention Monitor

This Economy Exit Alert functions with weight-sensing bed pad, chair pad, and Floor mat or Early Warning, Non-Restraint Seat Belts. Caregiver is notified by an audible and visual alert. Monitor can be placed at the bedside or wheelchair and then connected to a corded sensor pad, floor mat or seat belt. When the resident gets up from a bed or a chair, the monitor will sound alerting the caregiver.

On/Off Switch - Great for Floor Mats

The exit alert features an "On/Off" switch that enables the caregiver to attend to resident when moving or changing clothing or linens without sounding the alert.

Key Features:

- Full-Range Volume Control
- Nurse Call Capability - enables use with existing hard-wired nurse call systems
- Low Battery & Status Indicator Lights
- Batteries not included (3 x AA)
- Protective Boot

For use with one of the following Corded Sensors:

PPB-WI – Bed Sensor Pad 20" x 30"

PPB-RI – Bed Sensor Pad 10" x 30"

PPC-WI – Chair Sensor Pad 10" x 15"

Prevent Falls & Wandering

TL-2100S

Tamperproof Monitor Can Only be Turned Off by Caregiver

Automatically Turns On When Resident Sits or Lies on Pad

Simply plug a sensor pad into the alert and place the weight-sensing pad under the resident in a chair or bed. When the resident gets up and weight is removed, the alert will sound notifying caregivers that the resident is on the move. This alert features an Auto-Reset® function which will automatically reset and silence the alert when weight is re-applied to the sensor pad.

Optional Settings

When set to TamperProof®, the alert can ONLY be reset using the provided Reset Key. Selecting this setting ensures that only the designated caregiver can silence the alert.

Key Features:

- Full-Range Volume Control
- Nurse Call Capability - enables use with existing hard-wired nurse call systems
- Optional Setting: TamperProof® Reset Key allows control of who is able to reset the alert.
- Batteries not included (3 x AA)
- Optional AC adapter (AC-05)
- Protective Boot

For use with one of the following Corded Sensors:

PPB-WI – Bed Sensor Pad 20" x 30"

Low Cost Monitor Signals Pager For Quiet Wireless Fall Prevention

Remove Alarm Noise in Room - Volume Control Adjusts From Silent To High For Your Needs

The Economy Quiet Fall Prevention Alert to Pager can be set to silent to reduce in-room alert noise. When a resident attempts to get up, a silent wireless signal is sent to a caregiver pager or Economy Central Monitor.

Flexible & Versatile – Works with all Corded Sensors

The Economy Quiet Fall Prevention Alert to Pager is designed to work with Corded Bed & Chair Sensor Pads, Floor Mats, Seat Belts, Pagers, Emergency Call Lights and Central Monitoring Units. This alert allows caregivers the flexibility to monitor residents based on their unique needs.

Increase Caregiver Freedom!

Caregiver can attend to other duties and receive an alert with use of a pager when someone is getting up from a bed or chair. Can also be used with a floor mat to notify resident is on their feet.

Key Features:

- Range: up to 300 feet
- Call Button on front of monitor
- Batteries not included (3 x AA)
- Optional AC adapter available (AC-05)
- Works with 433-CMU-40/60

TL-2016R

Professional Grade Fall Prevention Monitor Sends Signal to Pager

Remove Alarm Noise in Room – Volume Control Adjusts From Silent To High For Your Needs

The Fall Prevention Alert can be set to silent to reduce in-room alert noise. When a resident attempts to get up, a silent wireless signal is sent to a caregiver pager or central monitor at nurse's station.

Flexible & Versatile – Works with All Corded Sensors

The Fall Prevention Alert is designed to work with Corded Bed & Chair Sensor Pads, Floor Mats, Seat Belts, Pagers, Emergency Call Lights, Nurse Call Cords and Central Monitoring Units. This alert allows caregivers the flexibility to monitor residents based on their unique needs.

Increase Caregiver Freedom!

Caregiver can attend to other duties and receive an alert with use of a pager when someone is getting up from a bed or chair. Can also be used with a floor mat to notify if they are approaching a door.

*Additional Call Cord (TL-2016NC) or Touch Pad (NC-03) available.

Key Features:

- Monitor sends wireless signal to pager up to 300 feet
- Call Button on front of monitor
- Nurse Call Capability - enables use with existing hard-wired nurse call system
- Batteries not included (3 x AA)
- Optional AC adapter available (AC-05)

TL-3100V

Remove Alarm Noise with Recordable Personal Message

"Mom, please sit down, help is on the way."

Dual Function Monitor works with Bed & Chair Sensor Pad or as a Pull String

The Recordable Voice DUAL Alert works as a pull-string monitor OR sensor pad monitor and can easily be transferred from bed to wheelchair and back. This eliminates the need for multiple monitoring devices. Alert will sound when the magnetic pull-string is pulled free of the alert or when weight is removed from weight-sensing pad. Alert resets when the magnetic pull cord is replaced, when weight is re-applied to the connected sensor pad or when reset button is used.

Personalized Recordings

Eliminate startling alarm noise by recording a personalized message to be played back when the alert is activated. With up to 15 seconds of playback time available, you can record a melody or familiar voice to be heard as the alert sound.

Key Features:

- Recordable Voice Option
- Pad Lost, Low Battery & Alert Status Indicator Lights
- Nurse Call Capability - enables use with existing hard-wired nurse call system
- Monitoring Options: Corded Bed Pad, Chair Pad, Floor Mat and Seat Belt, Landing Mat & Fall Mattress
- Batteries not included (3 x AA)
- Optional AC adapter available (AC-05)
- Protective Boot

For use with one of the following Corded Sensors:

PPB-WI – Bed Sensor Pad 20" x 30"

PPB-RI – Bed Sensor Pad 10" x 30"

Prevent Falls & Wandering

Weight-Sensing Bed Pads, Chair Pads & Floor Mats for Corded Fall Prevention Alerts

Replacement Pads and Floor Mats for Corded Fall Prevention Systems

These early warning bed pads, chair pads, and floor mats are designed for use with all corded Fall Prevention Alerts. The pad is placed under a resident, either on a chair or bed, and the floor mat can be placed beside the bed or at the doorway. When the resident gets up and weight is removed from the pad, or weight is placed on the floor mat, a signal is sent to the alert. This activates the alert to notify the caregiver that the resident is on the move. Unique Safe-T-Release™ cords used on 1-year bed pads and floor mats separate instead of breaking or pulling away from the pad.

ITEM#	SMART PRODUCT DESCRIPTION

Early Warning Non-Restraint Belts So They Don't Walk Alone!

For Use With Corded Fall Prevention Alerts

These early warning seat belts are designed for use with wheelchairs and Corded Fall Prevention Alerts.

Early Warning

The Fall Prevention Seat Belts reduce falls by triggering an alert when the Easy Release Buckle is unbuckled or the Quick Release Hook & Loop strap is opened. This notifies a caregiver before a resident attempts to leave their chair.

Non-Restraining

Both the Easy Release and Quick Release seat belts preserve resident's freedom of movement by not acting as a restraint. The Quick Release Seat Belt is ideal for residents with low dexterity as the Hook & Loop strap can be easily unfastened with one hand.

IMPORTANT: Seat Belts are NOT designed to restrain or hold individuals in position in their chair.

Key Features:

- Easy Release Seat Belt features a large, red button that is easy to locate and release with one finger
- Quick Release Seat Belt features an easily grasped Hook & Loop strap which unfastens quickly even for those with limited dexterity
- Easy Installation

Prevent Falls & Wandering

TL-2000

Know Before They Walk Alone! Lifetime Warranty Pull String Monitor

If It Breaks, We Replace It, FREE!

No more replacing expensive pull-string monitors! Our policy is simple: if it breaks, we replace it - FREE!

The virtually indestructible protective cover will stop the monitor from breaking when dropped. Many facilities still like the simplicity of a pull string but hate having to replace them all the time.

Locking Mounting Strap

The integrated, locking mounting strap easily and securely mounts to chair backs. Clip attaches to resident's clothing. Alert activates upon separation.

Key Features:

- Affordable
- Magnet alert resets when magnet is replaced
- Thick, impact resistant foam cover
- Battery included (1 x 9V)
- Unbreakable Protective Casing
- Stand-alone unit

Also Available: (TL-01) Non-Magnetic Pull-String Alert Monitor

- No Magnets. Won't interfere with magnet-sensitive equipment.
- A breakaway buckle is included for easy mounting

433-EC

Low Cost Fall Prevention Monitor Receives Signal From CordLess Sensors

**NEW
With Nurse
Call port**

No Cords! Place monitor where you need it.

Low Cost Solution

The Economy CordLess Fall Prevention Alert provides affordable and effective cord free monitoring with a range up to 300 ft. Ideal for home or small facility use.

Easy-To-Use

The Economy CordLess Fall Prevention Alert is easy-to-use and works with all CordLess Sensor Pads, Floor Mats, Nurse Call Buttons, and Motion Sensors. Monitor is light-weight and can be programmed with up to six (6) wireless components to serve as a portable caregiver alert.

Remove Noise From the Room

Alert can be mounted away from the bed, removing in-room alert noise. Adjustable volume and gentle chime alert won't startle residents and offers QUIETER fall prevention.

Key Features:

- Range: up to 300 feet
- Nurse Call Capability - enables use with existing hard-wired nurse call system
- Monitor up to six (6) components with one alert
- Can be used as hallway alert
- Batteries not included (3 x C)
- Optional AC adapter available (AC-04)

Economy Cordless Alert

433-EXT

Low Cost Window/Door Exit Sensor

Sends Signal To Economy Central Monitor or Economy CordLess Alert

Easy-To-Use

The Window/Door Exit Sensor can be mounted to a window or door frame using the provided mounting hardware or adhesive tape.

Alerts Caregiver

When the window or door opens, the contact magnet is separated from the sensor, a wireless signal is sent to the Economy Central Monitoring Unit or Economy CordLess Alert to notify the caregiver.

Program Multiple Exit Sensors

Multiple Door/Window Exit Sensors may be programmed to the Economy Central Monitoring Unit or Economy CordLess Alert to monitor more than one area of a facility or home at a time.

Key Features:

- On/Off switch - NEW
- Works with 433-EC & 433-CMU-40/60
- Battery included (1 x 12v/A23)
- Range: up to 300 feet

Required for use with the following CordLess Fall Prevention Alerts:

433-CMU -40/-60
Economy Central Monitor

433-EC
Economy CordLess Alert

CORDLESS® Weight-Sensing Pads **Remove Noise From the Room and** **Eliminate Cord Trip Hazards**

Replacement Pads & Floor Mats with No Cords for CordLess Fall Prevention Systems
 When using a CordLess Pad with a CordLess Alert you are able to remove the noise from the room, creating a quieter environment for residents. The pad is placed under resident, either on a chair or bed, and the floor mat can be placed either by the bed or by the door. When a resident gets up from a pad, or steps on a floor mat, a wireless signal is sent to the alert, activating the alert to notify the caregiver.

Smart Wireless Caregiver Personal Paging System

Increased Caregiver Freedom

The Call Button Paging System is a Stand Alone Personal Paging System and includes two Call Buttons and one Caregiver Pager. When pressed, the Nurse Call Buttons send a wireless signal to the pager, alerting the caregiver that assistance is required. This simple system eliminates in-room alarm noise and with a range of up to 300 feet, gives caregivers the freedom they need.

Easy Push-Button Operation

The call buttons can be worn as a necklace pendant using the provided lanyard strap or wall-mounted using the provided cradle for easy access.

Versatile Pocket-Sized Pager

The Caregiver Pager has two audible sounds to choose from and is small enough to be carried in a pocket or clipped to a belt.

Key Features:

- Audible alert pager with optional tones
- Range: up to 300 feet
- Lanyard Strap & Wall Mounting Cradle included
- Batteries included (2 x AA, 2 x 12V)

Absolutely Perfect!

"This is perfect to link you to another person some distance (but in the same house) away. We live in a two story house. This Smart Caregiver enables my invalid husband to let me know when he needs help when I am out of earshot."

-Lynette

Best thing ever!

"It enables me to do other stuff and my 80 year old mother can page me when she needs my assistance."

-Colleen

Easy-To-Use Motion Sensor Caregiver Paging System

No Noise in Room!

The motion activated Caregiver Paging System is a stand-alone motion paging system that allows you to eliminate in-room alarm noise. The Motion Sensor is placed in a doorway or by the bedside. When motion is detected, a wireless signal is sent to the caregiver pager up to 300 feet away.

Caregiver Alerted by Pager

The Caregiver Pager is pocket-sized and light-weight; giving caregivers the freedom they need.

Place it where you need it

The motion sensor can be placed next to the bed, by a doorway or anywhere to detect movement.

Key Features:

- Quiet in Room - No alarming monitors
- Easy to set up - insert batteries and it's ready to use
- Range: up to 300 feet
- Batteries included (5 x AA)
- Optional AC adapter for motion sensor (AC-04)

Motion Sensor
Range Detection Area

This is a game changer!

"Since we have gotten the smart caregiver monitor we all can now rest in another room with confidence! We have the monitor angled so that as soon as his legs swing over the side of the bed an alarm sounds! Works EVERYTIME!"

-Mike

This product is wonderful!

"It is great that the pager does not alarm in the patients room!! That causes a patient with dementia to get freaked out. Instead it alarms on a pager that the aide wears on her/himself."

-Mary

Smart Caregiver Mission Statement

To ensure the safety and comfort of each and every patient and resident,
Smart Caregiver is committed to supplying the least expensive and
best quality patient monitors so that caregivers can afford to have the
necessary number of monitors needed to keep people safe from falls.

Tim Long, Smart Caregiver President

A Few Words From Our Customers

Complete CordLess Bed Exit Monitoring System

"Your product is GOLD! It's already proved its value repeatedly.

-Satisfied Customer

Sensor Pads

"The pads are AWESOME and I will recommend them to anyone I know dealing with a dementia patient! Thank you!"

-Satisfied Customer

Fall Prevention Monitor with ON/OFF Switch & Bed Sensor Pad

"Very happy with the product. I use it under my 87 yr. old mother who has been challenged by a stroke and can no longer walk. It is security for me if I am in another room and she tries to exit the bed."

Basic Fall Prevention Monitor & Weight-Sensing Bed Pad

"Just what I was looking for! My husband is recovering from a stroke. Easy to use and peace of mind when I am away from my husband's room."

-Satisfied Customer

Portable Fall Prevention Monitor & Wireless Motion Sensor Alarm System

"This is EXACTLY what we were looking for! It is perfect for monitoring both my parents at night."

-Satisfied Customer

Floor Mats

"I love the Floor Mat Sensor Pad with the monitor. My mom would get up in the middle of the night and couldn't find the bathroom. I wouldn't sleep well during the night because I was always listening for her. After we started using the mat, I would finally get a good night's sleep, knowing that I would wake up if she needed me. Even after I would get up and help her, I would go right back to sleep not listening for her quiet shuffling footsteps. I was surprised what a difference it made. And I love the fact it doesn't go off in her room, only in mine. She frequently asked how I knew when she needed me.

-Bob C.
